Anxiety expert Lynn Lyons, whose advice appears regularly in *Psychology Today* and the *New York Times*, offers an eye-opening look at the 7 sneaky ways that anxiety and worry weave their way into our families, our friendships, and our jobs, and provides actionable steps to reverse the cycle and reclaim our emotional well-being.

Ask people to describe anxiety and they'll start with the familiar physical symptoms: racing heart, sweaty palms, difficulty breathing and a frightening loss of control. Anxiety has become the new normal, constant and simmering, disguising itself in patterns and responses we don't even recognize as anxiety. These patterns include:

- Ruminating and worrying (and mistaking it for problem solving)
- Going global, or seeing the world through an overwhelming, all-or-nothing lens
- Isolating and disconnecting, all too common in our "new normal"
- Creating chaos and "busy-ness", for example, over-scheduling and multitasking
- Embracing your irritability
- Confusing self-medication with self-care

*The Anxiety Audit* is a time-tested practical guide to untangling yourself from the grips of worry and fear. Using stories, real-world examples, and helpful dialogues to retrain the way you think and react, Lynn Lyons helps you recognize the sneaky ways these anxious patterns and cycles of worry take hold in your life. By making small and consistent adjustments, you can reverse their negative impacts and move forward with renewed clarity and confidence. So if life keeps you up at nights and anxiety fills your days, *The Anxiety Audit* is the way to stop needless worry and focus on life's positive aspects.

Lynn Lyons, LICSW, is psychotherapist and has been in practice for 30 years specializing in the treatment of anxiety in adults and children. She travels internationally as a speaker and trainer on the subject of anxiety, its role in families, and the need for a preventative approach at home and in schools.

With a special interest in breaking the generational cycle of worry in families, she authored several books and articles on anxiety, including with co-author Reid Wilson *Anxious Kids, Anxious Parents: 7 Ways to Stop the Worry Cycle and Raise Courageous & Independent Children*, and the companion book for kids, *Playing with Anxiety: Casey's Guide for Teens and Kids*.

Harvard-trained psychologist and *Psychology Today* parenting expert Carl Pickhardt gives parents an eye-opening look at the rocky road to parenting a teenager, revealing the Four Freedoms that every child must master to become a healthy adult--and how parents can adapt, encourage, and grow themselves during these tumultuous times.

Parenting a teenager is not for the faint of heart. And there's a reason the road is rocky--it's supposed to be. Children must pass through "four unfolding freedoms" in order to become competent, independent, and confident adults. How easily parents can navigate these twists and turns directly correlates to how successful their children will be. The four unfolding freedoms are these:

1. freedom from rejection of childhood, around the late elementary school years, when they want to stop acting and being treated as children anymore.
2. freedom of association with peers, around the middle school years, when they want to form a second family of friends.
3. freedom for older experimentation, around the high school years, when they want to try more grown-up activities.
4. freedom to claim emancipation, around the college age years, when they decide to become their own ruling authority.

With each successive push for freedom, both parents and teens need to learn how to do less holding on to each other while doing more letting go

Carl Pickhardt, Ph.D., is a noted psychologist, speaker, and parenting expert, now retired from private counseling practice. He writes a popular parenting advice column for *Psychology Today* and is the author of several books including *The Connected Father*; *Stop the Screaming*, *The Future of Your Only Child* and *Why Good Kids Act Cruel*.

***CHOOSING LEADERSHIP, REVISED AND EXPANDED***

Award-winning leadership teacher, lifelong educator, University of Chicago professor, and consumer advocate Dr. Linda Ginzel offers a new and expanded version of *Choosing Leadership* based on her bestselling workbook. Useful to everyone, from high-level executives to high school students, teachers, and stay-at-home parents, Dr. Ginzel how you can choose to be a leader.

The book gives readers the tools to sharpen leadership skills, putting the responsibility for personal growth and professional development in their own hands. It counters stereotypes that it takes a fancy title, big budget, impressive credentials, charisma, or innate leadership traits to be a “leader.” Rather, leadership is a choice; you choose when to manage and when to lead.

It provides an opportunity to answer tough questions of yourself, process your own life lessons, reflect on your unique experiences, and create your best future self. This process of self-discovery will help you develop individualized, customized wisdom and be your lifelong companion on the road to being wiser, younger.

Now revised, with the addition of Learning Modules for each chapter, *Choosing Leadership* provides step-by-step guidance to create group experiences designed to enable reflection, explore ideas, and enhance self-understanding. These group experiences create collective wisdom and encourage learners to make better and more thoughtful choices. Through peer discussions, readers learn how to coach themselves. While gaining self-understanding, they also gain confidence.

Dr. Linda Ginzel is a clinical professor of managerial psychology at the University of Chicago’s Booth School of Business and the founder of its customized executive education program. For three decades, she has developed and taught MBA and executive education courses in negotiation, leadership capital, managerial psychology, and more. She has also taught MBA and PhD students at Northwestern and Stanford, as well as designed customized educational programs for a number of Fortune 500 companies. Ginzel has received numerous teaching awards for excellence in MBA education, as well as the President’s Service Award for her work with the nonprofit Kids In Danger.

**COMING BACK TO LIFE**

**October 2022**

In a time when mental health hospitalization rates, substance abuse, divorce, suicide rates and depression are on the rise, an emotional healing expert demonstrates that when people believe that healing is possible, they can reinvent themselves and find freedom and happiness.

Now more than ever before, the world needs healing and people who never needed help now do. Rebeccah Silence, a certified world-class emotional healing coach, knows this pain. A survivor of childhood sexual abuse, domestic abuse, and cancer while pregnant, she beat the odds. In *Coming Back to Life*, she has created a roadmap that offers real tools, strategies, and support that will allow readers to get to the root of their pain patterns while also giving them hope, encouragement, and access to the light at the end of the dark tunnel that they may

be stuck in or living in.

Rebeccah Silence offers a very different approach from the typical therapeutic models, which are built on people being dependent on therapists, coaches, and mentors. Instead, she shows how to navigate and trust your own internal guidance system with simple and practical ways to heal the pain and embrace life again. Her mission is healing. The cure is self-responsibility and the promise is that HEALING IS POSSIBLE. And it starts with you.

Rebeccah Silence is a speaker, coach, and international media personality. She's impacted hundreds of thousands of listeners through her radio programs and appearances.

Don Kuhl, founder of The Change Companies®, shares the 10 big lessons he learned throughout life's little moments.

Don Kuhl has brought inspiration and transformation to millions by creating Interactive Journals that help people reflect on where they've been, where they are, and where they wish to go. Now it's Kuhl's turn to share his stories of growing older and the wisdom he has gained along the way. Before he founded The Change Companies, Kuhl managed motel properties, started several sports publications, worked in college and health care administrations, and launched about a dozen corporations. Some of them failed miserably, a few flourished.

Kuhl touches upon themes of gratitude, taking risks, appreciating the ordinary, and remaining open to all possibilities, giving readers a glimpse of living life to its fullest at every age. Some of his lessons include:

- Store happy memories in your brain and play them often
- Give love and hang on to your most meaningful relationships
- Gobble up knowledge
- Accept what is and have gratitude for where you are
- Focus on the positive- don't let bad things define you
- Be kind
- Celebrate small pleasures – everyday joys can last a lifetime
- Be courageous
- Listen to your animal pals – they can teach you a bunch

The book will include beautiful four-color photos (all cleared) in a large format.

The Change Companies is well known as a leader in creating products that foster positive growth and self-esteem. They will help market the book with an outreach to their international network (25 million strong).

***CHASE THE BEARS: Little Things to Achieve Big Dreams***

An inspiring, humorous, and original book of conventional and unconventional self-help ideas from former Congressman Ric Keller, who rose from humble beginnings to the U.S. House of Representatives.

“Chasing the bears” is a metaphor in life for chasing your dreams. Most people are content to stay inside, play it safe and look out their window as life passes them by. Eventually the clock runs out. On the other hand, a few people take a chance and chase their dreams.

Ric Keller grew up poor and was raised by a single mother. He didn’t meet his father until he was 14. At their first meeting, he handed Ric a copy of Napoleon Hill’s *Think and Grow Rich*. Ric would read it six times before his high school graduation. Putting the message into practice, he decided to try an experiment and set two big goals: to graduate from college first in his class and get elected to Congress (despite being a political novice with no connections, no money, and initially told to drop out of the race by his own party). Both of these things came true.

In *Chase the Bears*, Ric Keller reveals the five little things you can do to succeed and be happy—no matter where you start in life. They are encapsulated here and woven together with practical, actionable steps interspersed with fascinating anecdotes about others who have made their dreams come true by trusting their instincts, using their gifts, taking risks, and never quitting.

Ric Keller’s TED Talk on the subject has gotten 48,627 views since it posted on May 3, 2022.

***THE FACEBOOK NARCISSIST: How to Identify and Protect***  
***Yourself and Your Loved Ones from Social Media Narcissism***

**May 2022**

A comprehensive guide for understanding how narcissism on social media impacts our mental health, how to protect ourselves and our children from those affects as well as from narcissists, and how to use social media more mindfully.

Lena Derhally, a licensed psychotherapist certified in Imago therapy, delves into how social media enhances individual and cultural narcissism and how it may create or exacerbate toxic narcissistic tendencies in people who use it. Using her clinical expertise, along with scientific research and interviews with other experts in the field, she thoroughly examines: how narcissism on social media contributes to false narratives and ruptures relationships; how to identify a narcissist on social media (including how to spot the more subtle sub-types of narcissist); how narcissism relates to the “influencer” and celebrity culture; narcissism and cyberbullying, cyberstalking, trolling, and victim blaming on

social media; and how social media can create a problem of narcissism in children as they grow up.

Derhally’s expertise in cultivating healthy, fulfilling, and connected relationships helps guide readers to take a deeper look at their behaviors on social media and of those around them. At the end of each chapter, she gives practical tips and takeaways for navigating narcissism online. Derhally also instructs readers on how they may use social media for good, and as a tool for positive social change.

Lena Derhally is a licensed psychotherapist certified in Imago Relationship Therapy. She is the author of the bestselling true crime book, *My Daddy Is a Hero: How Chris Watts Went from Family Man to Family Killer*, and her work and expertise have been featured in *O, The Oprah Magazine*, *SELF*, *Glamour*, *The Washington Post*, *A&E*, *Hollywood Life*, *The Huffington Post*, *Law and Crime*, and more.

## *BACKLIST GEMS*

In this classic bestseller – over 1 million copies sold in the U.S. -- Dr. Whitfield provides a clear and effective introduction to the basic principles of recovery.

Estimates show that over 50% of the population have experienced childhood trauma. In some cultures, that number is as high as 90%. When trauma occurs in childhood, the core aspect of human consciousness - our true self - goes into hiding and is, typically, replaced with an egotistical false self.

As fresh and useful today as it was more than a decade ago when first published, the book describes the process of wounding that the Child Within (True Self) experiences. It then shows how to differentiate the True Self from the false self. Dr. Whitfield also describes the core issues of recovery and more. He guides us through four steps to rediscovering our true self:

1. Learn to be 'real' by practicing being 'real' with safe others.
2. Identify your healthy human needs.
3. Grieve your ungrieved hurts, traumas and losses.
4. Work through your core recovery, relationship and life issues.

Charles L. Whitfield, M.D., is a physician, psychotherapist, and internationally recognized expert on mental illness, behavioral problems, and recovery. He has been voted by his peers as one of the Best Doctors in America every year since 1994.

***OPTIMISTS ALWAYS WIN!***

**January 2021**

Eliminate discouragement and embrace an optimistic attitude in life with concrete tools to turn your life around by an award-winning international speaker, author, corporate trainer and diversity, equality and inclusion strategist.

Our brain's default setting is negativity. Ask anyone who has ever tried to lose weight, achieve a new skill, or incorporate a new habit and they can tell you that our natural tendency is to levitate toward mediocrity. However, optimism overpowers that negativity. In this book, Reed helps readers develop a process to stay optimistic all the time and obtain a level of happiness, peace, wisdom and growth in all areas of our lives. It's choosing optimism instead of anger, bitterness, or revenge.

The book challenges anyone facing what seems to be an impossible situation and shows that victory is absolutely possible. Relying on her own struggles in life and the optimism that she learned to cultivate, Kimberly Reed teaches her readers the ten discouragement eliminators she used, which helped her succeed not just in her fight against cancer but as she lives each day as her best self. The message of this book is simple: difficulties and struggles are unavoidable in life, but a person has complete control over one's personal response to the situation.

The author is donating all royalties to the book to a Premier Academic Research Institution for Integrated Breast Cancer Fund and Patient Care, and American Cancer Society.

A powerful, no-nonsense guide for women that provides them the keys to unlock a fulfilling life.

Every woman lives by a code, whether she realizes it or not. It informs how she treats others and herself, how much she expects of herself, and how far she is willing to go in order to find success. But is the code we're living by truly helping us create the lives of purpose and fulfillment we desire? Or are we sacrificing the deeper things for mere achievement?

In this inspiring book—updated with new insights from the profound economic and societal shifts that have changed our world with the advent of the global pandemic—Sophia A. Nelson calls women to live out a powerful life code that will lead them to purposeful and successful lives. With the wisdom that comes from experience, Nelson reveals to women:

- The true meaning of “having it all”
- How to take better care of their minds, bodies, and souls
- How to discover new reserves of strength
- The importance of having courageous conversations to build relationships
- How to achieve professional excellence without compromising their values
- How to find lasting love and purpose in life beyond their accomplishments
- How to navigate the sisterhood of women, to build collaboration rather than competition
- How to heal from past hurts, rejection, and life's inevitable storms

*The Woman Code* shows women that everything they need to lead the lives they want are already inside of them. Drawing from her personal faith and her experience in the business world, Sophia Nelson explores 20 keys to unlocking the life you want.

Sophia Nelson is a sought-after motivational speaker and leadership trainer in Fortune 500 companies and at universities. The trade paperback version of this book provides younger women, and those who are trying to rebuild their careers after the pandemic, an affordable option.

Mika Brzezinski is the co-host of the popular MSNBC show “Morning Joe.”

*"Nelson explains how women can recognize the codes they operate by and use them to reshape aspects of their lives, using what she calls the "Personal Codes," the "Emotional Codes," the "Spiritual Codes," and the "Professional Codes." Unlike many of today's self-help authors, Nelson doesn't indulge in an us-against-them mentality. Rather, she says that women should be strong, assured, and responsible for their own actions and choices. This refreshing approach is both empowering and enlightening and should appeal to women of all ages." -Publisher's Weekly*

*"The Woman Code exposes the personal, emotional, spiritual, professional and social areas where the distortions lie, and shares principles for making genuine life transformation. Nelson's words appear like rest stops welcoming the reader to bring forth her true self, "To be a woman is power in motion." The Codes challenge antiquated ideas on womanhood, including attitudes that women have toward one another. The Woman Code is a straightforward, comprehensive guide to liberate the true woman inside." -Huffington Post Book Review*

***THE PSYCHOPATH EPIDEMIC: Why the World Is So Fucked Up  
And What You Can Do About It***

For readers of the bestselling *Sociopath Next Door* comes a unique look at the psychopaths among us and how our society--from businesses and governments to religions--encourages and rewards psychopathic behavior, and what average citizens can do to survive and thrive when we must live with, learn from, or be led by psychopaths.

Every day in the news we hear about people in positions of power doing deplorable things--in business, politics, and government, from sexual harassment to polluting the environment to covering up crimes. And it's no wonder considering a small percentage of people wield a large amount of power, and that these very same people fit the definition of a "psychopath."

A highly engaging and gripping read, Cameron Reilly's book adds to our growing understanding of sociopaths with a detailed analysis of how our society encourages and rewards psychopathic tendencies, and how, because of this, psychopaths the world over have risen to power. Using historical references to pop culture examples, Reilly offers a field guide to psychopaths--how to spot them and how to outmaneuver them so you can keep your sanity intact. This is the first-of-its-kind book to examine the shocking evidence and then suggest practical solutions for saving us all.

Cameron Reilly is a marketer, film maker, and podcast pioneer who has spent fifteen years producing content about some of history's most famous political and military leaders. After a career in marketing with Microsoft, he co-founded one of the world's first podcast businesses, The Podcast Network, and created one of Australia's leading marketing strategy firms, Motherlode Marketing.

Lessons from bossy, caring, fearless, vulnerable, relentless, forgiving, smart, humble women at the top show readers how to be both kind and assertive and not allow others to assign a role to you that you are not comfortable with.

The book tells women that success comes when you are comfortable living in the space between grit and grace—grit meaning being resilient and taking charge of your life (socially-acceptable masculine attributes), and grace meaning showing others mercy (socially-acceptable feminine trait). Dr. Sasha Shillcutt, a nationally lauded, award-winning physician and speaker, will explain how to give yourself permission to disappoint nice people (and know that you are still a nice person anyway). You'll learn how to stop apologizing for showing your strength and grit, and embrace your grace, too. This is where personal peace lives.

Using real-life stories—ranging from women in law and medicine to women in education—the book explains how women can be feminine and formidable. Leadership and lipstick are not mutually exclusive. You'll realize you can be bossy and caring, fearless and vulnerable, relentless and forgiving, smart and humble—and make it to the top. Across the space of ten chapters, you'll learn how to navigate the forces that have shaped the modern workplace while doing so with grit and grace. When a woman lives authentically—she succeeds.

Sasha Shillcutt, MD, is an award-winning physician, clinical scientist, national educator, writer, and speaker. A board-certified cardiac anesthesiologist and tenured associate professor, she has published close to 30 peer-reviewed scientific articles in professional journals including the prestigious New England Journal of Medicine and the Journal of the American Medical Association and contributed chapters to four books. In 2016, Sasha was awarded the national American Medical Association's Women Physician's Inspiring Physician Award by her peers.

Based on popular essays in *New York Times*' Modern Love column and on *Salon*, as well as an Off-Broadway one-person play, *The Pleasure Plan* is a sexual healing odyssey, a manifesto for women to claim pleasure as a priority, and a love story all at once

The World Health Organization reports that 50 percent of women suffer from sexual dysfunction at some point in their lives. Such was the case with Laura Zam, who suffered the blame, shame, and embarrassment of feeling bedroom broken. For her, delving between the sheets meant physical pain, zero desire, and emotional scars from being molested in her early years. However, in her late forties, after meeting and marrying the love of her life, Zam was determined to finally fix her sensual self. In partnership with her initially reluctant husband, she visited 15 healers and tried 30 pleasure-enhancing methods: from dilators and dildos, to hypnosis and hosting a sex brunch, to cleansing chakras, to making love to her husband in front of a geriatric Tantric goddess.

Packed with humor, heart, and a healthy dose of prescriptive advice, this book chronicles Zam's insights as she confronts many issues—from mismatched libidos to female erection enlightenment. Throughout this journey, she and her husband grow as individuals and as a couple, both in and out of the bedroom.

Laura Zam is a regular contributor to: *New York Times* (302 million visitors a month), Huffington Post (110 million visitors a month), Salon (12 million visitors a month) and other publications. In addition, she will offer online videos, a podcast and other events.

For seventeen years *The Betrayal Bond* has been the primary source for therapists and patients wrestling the effects of emotional pain and harm caused by exploitation from someone they trusted.

Divorce, litigation, incest and child abuse, domestic violence, kidnapping, professional exploitation and religious abuse are all areas of trauma bonding. These are situations and relationships of incredible intensity or importance lend themselves more easily to an exploitation of trust or power.

In *The Betrayal Bond*, Dr. Carnes presents an in-depth study of these relationships; why they form, who is most susceptible, and how they become so powerful. Dr. Carnes also gives a clear explanation of the bond that compels people to tolerate the intolerable, and for the first time, maps out the brain connection that makes being with hurtful people comparable to 'a drug of choice.' Most importantly, Carnes provides practical steps to identify compulsive attachment patterns and ultimately to change or end them for good.

This new edition includes:

- New science for understanding how our brains can make a prison of bad relationships
- New assessments and insights based on 50,000 research participants
- A new section utilizing the latest findings in attachment research and narrative therapy to concretely rewrite and rescript bad experiences
- A redefinition of the factors contributing to addictive relationships

***THE BIG, BAD BULLY***

**October 2019**

Self-esteem expert Jack Canfield and noted educational speaker Miriam Laundry reveal that the biggest bully in a child's world is not lurking around the corner but living inside her head.

Words have power. The words others say to us can either lift us as high as the clouds, or drop us down like a crashing plane. But what about the words we tell ourselves? What about that constantly running inner voice? In truth, what we say to ourselves impacts us even more than what others say to us.

*"Pigtails are for babies!" she snarled at me. Her words hurt more than the time I broke my arm. I quickly untied my hair. I wore my hair down for the rest of the school year.*

*That was the first time I met the Big Bad Bully. . . . She called me names like "fatty," "piglet" and "ugly." Things are worse now that I am in the 6th grade. Even when I don't see her, I can always hear the whispers, the giggles, and the growls.*

So goes the mesmerizing story of a young girl who grows up with a voice that ridicules and demeans her. In the end, we discover that her tormentor is staring back at her every day in the mirror.

Featuring stunning artwork, this small yet profound book is a tool for engaging children, young adolescents, parents, and caring adults about the impressions they make on themselves with their thoughts and self-talk. Included are powerful workbook exercises and resources for implementing healthy self-esteem habits that can last a lifetime.

One of the greatest gifts we can give to ourselves is rethinking what we've been taught, because thoughts become behaviors. The same mind that gets us stuck is the same one that can set us free. We need a new organizing framework that allows more flexibility and moral grounding—one that lets science, emotion and spirit to fuse.

Too often, life's disorienting moments can leave us tumbling into messy, downward spirals. We lose clarity, and are held hostage by blind spots that keep us from thriving. In this uniquely liberating book, Dr. Kristen Lee teaches us how to apply a process of behavioral change using a series of different lenses, to steer our brains to overcome blind spots. We learn how to unlearn behaviors that no longer are relevant to our life and break free from society's expectations of what we should do to be perfect. Instead, she demonstrates how we can change our behavior and be more authentic in our life – resulting in our overall success and well-being.

A leading expert on resilience and behavioral science, Dr. Kristen Lee developed this new psychology of thinking model from over twenty years of clinical practice, the latest neuroscience, and her own research findings. Rather than falling for predominant definitions of 'success' that leave us boxed in, depleted, and oblivious to ways we can work together, Mentalligence helps us find the thinking and behavioral agility to work towards better outcomes for all.

Dr. Kristen Lee is a recognized, award-winning clinician, author and Behavioral Science professor from Boston with more than twenty years in the field. Dr. Lee speaks around the globe with business leaders, educators, physical and mental health professionals and general audiences. Some of the venues she speaks at include Harvard University, Ted X, Virgin Pulse, and Johnson & Johnson.

Almost every dog owner has a pet who suffers from fear, anxiety, and stress (FAS). They are the underlying cause of many concerning behaviors such as excessive barking, aggression, destructive behaviors, and house-soiling. They are also the source for deterioration of the human-animal bond. Left untreated, these negative experiences can lead to devastating consequences and permanent damage.

Finally, there's help. *From Fearful to Fear Free* is based on the groundbreaking Fear Free program embraced by tens of thousands of veterinary healthcare professionals and hundreds of thousands of pet owners (fearfreepets.com and fearfreehappyhomes.com). By knowing your dog's body language, vocalizations, and changes in normal habits, you can make an accurate diagnosis and take action to prevent triggers or treat the fallout if they do happen.

You'll learn:

- The most effective prescription sedatives for keeping dogs calm and happy during thunderstorms, fireworks, and other stressful events.
- The positive steps you can take to keep your pet occupied, calm, and content while you're away at work or play.
- Simple, practical tactics for helping your dog learn to love going to the veterinarian's office—literally pulling you into the practice instead of avoiding it!
- How to easily groom your dog and give him medication.
- Tips to tame the chaos when guests arrive in your home or when your dog encounters other dogs and people on walks.
- Ways to tackle some of the common behavior issues that often have a root cause of FAS, while also improving your communication and bond with your pet.

Dr. Marty Becker, is the founder of the Fear Free<sup>SM</sup> initiative, an educational certification program to train veterinarians and pet professionals to ease the fear, anxiety, and stress of the pets in their care.

Mikkel Becker is the lead trainer for *FearFreePets.com* and specializes in reward-based training with a focus on helping animals (and their people) learn to calmly their fears and gain greater confidence, freedom and peace on the other side.

Dr. Lisa Radosta is a board-certified veterinary behaviorist and serves on the Fear Free<sup>TM</sup> Executive Committee and the AAHA Behavior Management Task Force. Dr. Wailiani Sung is a board-certified veterinary behaviorist and owner of All Creatures Behavior Counseling in Kirkland, Washington, where she focuses exclusively on treating behavior problems in dogs, cats, and birds.

With *Prodependence*, Dr. Robert Weiss offers readers the first fully new paradigm in over 35 years for helping those who love and care for addicts. An attachment-focused model, prodependence recognizes that no one can ever love too much, nor should anyone be pathologized for whomever they choose to love as is often the case. Prodependence informs caregivers how to love more effectively, but without having to bear a negative label for the valuable support they give. When treating loved ones of addicts and other troubled people using prodependence, we need not find something "wrong" with them. Instead, we acknowledge the trauma and inherent dysfunction that occurs when living in relationship with someone whose life is failing and keep moving forward. Validating a caregiver's painful journey for what it is opens the door to support them in useful, non-shaming ways. Helping people take incremental, positive steps toward intimate healing is what *Prodependence* is all about!

Robert Weiss is Senior Vice President of Clinical Development with Elements Behavioral Health. He founded the Sexual Recovery Institute in Los Angeles and has developed clinical programs for The Ranch in Nunnally, Tennessee, Promises Treatment Centers in Malibu, and the Sexual Recovery Institute in Los Angeles.

Jack Canfield is a master motivator, world-renowned teacher, and bestselling author of *The Success Principles*. In his book, *Success Affirmations*, he helps readers break through to new levels of passion, purpose, and prosperity with 52 affirmations and time-tested wisdom.

In our 24/7 world, where we move at warp speed, sometimes we let life happen to us instead of taking control of our direction. Other times, we suffer from information overload, and we fail to consciously control our positive thoughts, and we allow negativity to take over. For those who want to rise above, to get unstuck, or to catapult to a new level success, Jack Canfield will show you how positive affirmations can transform your life in extraordinary ways.

Canfield, with the help of esteemed co-authors Kelly Johnson and Ram Ganglani, explains what positive affirmations are (and what they are not), why they are so effective, and how to effortlessly integrate their practice into your life. Pulling the most effective tenets from his bestselling book *The Success Principles*, Canfield covers all areas of life, from financial prosperity and creative pursuits to your career and positive relationships. *Success Affirmations* reveals:

- How to avoid letting life just happen to you, and how to proactively go after your dreams
- How to use the power of deliberate thought to create the reality you want
- How to identify your true passions and purpose to direct your affirmations to concrete goals, not nebulous ideas or someone else's vision
- How to harness positive energy to attract what you want in your life through the Law of Attraction
- How to unplug from technology and plug into your true source of energy

Listening is the key to true communication and Jeff Lazarus shows readers how to model communication skills on everyone's best friend – their dog.

When you talk to your dog, you feel free to say what you really feel about your struggles, fears, heartaches and joy. Talking to your dog makes you feel free to say whatever you want, without the burden of justifying your feelings, being witty or making a good impression. Even if you can't have a real discussion, when compared to conversations with humans you'd probably admit that dogs are the better communicators—paws down. Why? Because even though they don't speak our language, they *really* listen. *Listen Like a Dog* takes a fresh look at listening and we need go no further than the furry best friend at our feet. Dogs don't interrupt us, finish our sentences, offer advice, try to top our stories, or text us instead of talking to us. Dogs pay extremely close attention to us; they study our facial expressions, our body language, our eye movements, and our voice patterns. Dogs do not just listen with their ears, they listen with their *entire being*.

True listening can enhance every relationship in one's life, and can transform broken associations and inject new life into business and social interactions. It is the magic ingredient that forges real connections with others. People want good listeners in their inner circle, they want to do business with them, they trust them and will share critical information with them. That means the person who masters this skill has *enormous* advantages, both in business and in his or her personal life. By listening like a dog, readers will find renewed connection and a deeper sense of compassion, companionship and understanding with the people in their lives

***"Listen Like a Dog offers a totally fresh perspective on attaining success in our personal and professional relationships. Jeff Lazarus gives you the tools to get out of your own way and experience the miracles that will come to you when you model the behavior of man's best friend. The witty and wise advice he offers will enable you to become a master communicator in almost any situation. Take the lead from your dog and reap the rewards." —Jack Canfield, co-creator of the Chicken Soup for the Soul series and creator of The Success Principles series***

***LEARNING TO LOVE YOURSELF, Revised***

**May 2012**

A blueprint for creating your own self-worth and healing from a dysfunctional upbringing by a renowned therapist.

We all come into this world full of promise and possibility. For some, when born into a healthy and highly functional family, the journey is quite easy, with guideposts and directions given freely. However, for the millions of people who grew up in painful families, whether by absent parents, abusive parents, or those who were ill-equipped, Sharon Wegscheider-Cruse shows that they do not have to follow a family tradition of compulsion or addiction.

In the revised edition of the classic *Learning to Love Yourself*, Wegscheider-Cruse explains that it is possible to create our own self-worth at any time in our lives, even as adults. She guides readers on a journey to greater self-worth, explaining how to eliminate toxic self-defeating messages, how to choose healthier, new perspectives, and how to reinvent yourself each day open to a world of possibilities

Sharon Wegscheider-Cruse is a family therapist, businesswoman, and founder of Onsite Training and Consulting. She is the author of twenty-three books, including five bestsellers, translated into thirteen languages, most notably *Another Chance: Hope and Health for the Alcoholic Family*, *Learning to Love Yourself*, and *Choicemaking*. In this classic book, Dr. Susan Newman examines the myths about having an only child and helps parents decide what is best for their family and circumstances.

Many parents wrestle with having a second child and wonder if their only child will be lonely, spoiled, bossy, or selfish? Despite the personal distress and pressure to have a second baby, the number of women having an only child has more than doubled in the last two decades. What most people don't realize is that one-child families outnumber families with two children and have for more than two decades.

In *The Case for the Only Child*, Newman walks parents (and future parents) through the long list of factors working for and against them as well as highlights the many positive aspects of raising and being a singleton. Although each situation is unique, the profound confusion surrounding having a second child is similar. It is one of the most difficult and life-altering choices parents face. Adding to one's family dramatically changes one's life and the life of one's firstborn forever. What will a person give up in time, money, freedom, intimacy, and job advancement with another child in the household? What will they gain? *The Case for the Only Child* helps explore and resolve these perplexing questions.

Susan Newman, Ph.D., is a social psychologist and the author of 15 non-fiction books about parenting and issues affecting family life. She taught at Rutgers University and is a featured speaker/workshop facilitator on family life and children's issues. Susan is the author of the classic book *Parenting the Only Child* and blogs for *Psychology Today* magazine.

A fascinating look at how cognitive behavioral therapy (CBT) has the incredible power to change the way we think, perceive, and react to stress—for the better, by a leading expert.

You have the incredible power to change the way you think, perceive, and react to stress—for the better—through Cognitive Behavioral Therapy ("CBT"). CBT has been known to be widely successful in the treatment of problems associated with anxiety, anger, depression, mood, personality, addiction, weight, insomnia; and many other emotional disturbances. Until recently, access to CBT was only available through professional therapy.

Now with *The Brain Mechanic*, Spencer Lord delivers a concise, humorous, and easy-to-use handbook that demystifies cognitive behavioral therapy for the lay user. With simple exercises, clear explanations, and helpful insight, Lord makes it easy for people to fit this technique into their daily lives, improve their mood, broaden their communication skills, and enrich their relationships.

The book breaks down the science of cognitive behavioral therapy and turns it into actionable techniques that work immediately, including introducing "emotional algebra" for solving behavior issues in minutes. It also provides practical techniques which can simply and effectively combat anxiety, anger, and a number of other emotional problems. Finally, Spencer Lord provides customizable mental exercises for people of every age, background, and pace of lifestyle.

Spencer Lord traveled throughout Asia—teaching ESL, and working for Mother Teresa in Calcutta, India, before his interest was sparked in cognitive psychology.

**NEVER FEAR CANCER AGAIN**

**August 2011**

A proven guide to preventing and reversing cancer from an internationally recognized leader in the field of optimal-health maintenance.

Most cancer research dollars have been wasted by asking the wrong questions, looking in the wrong places, and recycling the same failed approaches while expecting different results. Conventional cancer treatments damage health, cause new cancers, lower the quality of life, and decrease the chances of survival. In fact, most people who die from cancer are not dying from cancer, but from their treatments!

The good news is that we can end the cancer epidemic. In *Never Fear Cancer Again*, readers will gain a revolutionary new understanding of health and disease and will come to understand that cancer is a *biological process* that can be turned on and off, not something that can be surgically removed or destroyed with radiation or toxic chemicals. So whether cancer has already been diagnosed or if prevention is the concern, it is possible to turn off the wayward production of these malfunctioning cells once and for all by reading this book and implementing its strategies.

The key to any disease has one simple cause: malfunctioning cells that are created by either deficiency or toxicity. By switching off the malfunctioning cells, you switch off the cancer. *Never Fear Cancer Again* guides readers along six pathways that cause deficiency or toxicity at the cellular level: nutritional path, genetic path, medical path, toxin path, physical path, and the psychological path. By making key lifestyle changes, people truly have the power to take control of cancer and transform their health. This radically different, yet holistic approach restored author Raymond Francis back to health just as it has helped thousands of others, many of whom were told they had no other options or that their cancer was incurable. Take back your health with this book and never fear cancer again.

Raymond Francis is the author of the bestselling books *Never Be Fat Again* and *Never Be Sick Again*. Francis is also the creator of a revolutionary and simplified understanding of disease, the Beyond Health Model, which employs the concept of One Disease with Two Causes and Six Pathways. An in-demand speaker, Francis has been a guest on over 2,000 radio and television shows. His books have been translated into Chinese, Polish, Romanian, French and Turkish.

This classic bestseller is an inspirational book designed to combat a global “hope shortage” and speaks to what we’re all going through during these tough times of political, social, economic and emotional upheaval – and then there’s this never-ending pandemic.

Following in the footsteps of successful inspirational books like *The Power of Positive Thinking* and *The Purpose Driven Life*, *The Power of Hope* is the definitive guide for understanding, developing, and strengthening our most important emotion: Hope. Anthony Sciolì, Ph.D., and Henry Biller, Ph.D., two renowned clinical psychologists, offer thought-provoking insights, compelling case studies, and practical “hope” exercises rooted in spirituality, religion, psychology, and philosophy, as well as their own personal stories of resilience. The result: a deeper assimilation of hope in daily life.

In *The Power of Hope*, readers will encounter:

- Strategies for overcoming nine kinds of hopelessness as well as for combating depression and suicide
- Advice on utilizing hope to manage the “day-to-day”—from work and relationships to serious illness, grief, or loss
- Ways in which hope can impact overall health, exercise, and diet
- Hope self-assessments, including a hope provider and spiritual intelligence scale

Whether one is dealing with a serious health issue, a traumatic past, or just trying to thrive in a time of political and economic unrest, hope is the key to fostering success, love, and survival. *The Power of Hope* will inspire readers with renewed faith and possibility.

Anthony Sciolì, Ph.D., is professor of clinical psychology at Keene State College as well as a member of the graduate faculty at the University of Rhode Island. Dr. Sciolì completed Harvard fellowships in human motivation and behavioral medicine, and is listed in *Who's Who in America*. He co-authored the chapter on emotion for the *Encyclopedia of Mental Health* and has served on the editorial boards of the *Journal of Positive Psychology* and the *Psychology of Religion and Spirituality*. Considered to be one of the world's leading researchers of hope, Dr. Sciolì has consulted to various NBC and CNN affiliates as well as WebMD on matters such as depression, coping, and trauma, and psychological adjustment in the aftermath of 9/11.

Henry Biller, Ph.D., is professor of clinical psychology at the University of Rhode Island and has been involved in training mental health professionals for more than forty years. He has written eleven books, including *Father Power*, *Stature and Stigma*, and *Creative Fitness*. His groundbreaking work on the role of the father led to appearances on *The Phil Donahue Show* and *The Today Show* as well as a feature article in *Life* magazine.

***EVOLVE YOUR BRAIN: The Science of Changing Your Mind***

If we modify our thoughts, does our reality change?

Joe Dispenza, D.C., has spent decades studying the human mind---how it works, how it stores information, and why it perpetuates the same behavioral patterns over and over. *Evolve Your Brain* presents this information in depth, while helping you take control of your mind, explaining how thoughts can create chemical reactions that keep you addicted to patterns and feelings----including ones that make you unhappy. And when you do know how these bad habits are created, it's possible not to only break these patters, but also reprogram and evolve your brain, so that new, positive, and beneficial habits can take over. And when we truly change our mind, we change our

life.

Dr Joe Dispenza is an international lecturer, researcher, corporate consultant, author, and educator who has been invited to speak in more than 33 countries on six continents. As a lecturer and educator, he is driven by the conviction that each of us has the potential for greatness and unlimited abilities. In his easy-to-understand, encouraging, and compassionate style, he has educated thousands of people, detailing how they can rewire their brains and recondition their bodies to make lasting changes. He is the *New York Times* bestselling author of *Becoming Supernatural* and *Breaking the Habit of Being Yourself*.

***FREEDOM FROM ADDICTION: The Chopra Center Method***  
***for Overcoming Destructive Habits***

**November 2007**

Millions of people have embarked on a Twelve-Step Program, whether it's Alcoholics Anonymous, Nicotine Anonymous, or Alateen. However, there are millions of others who are unable or unwilling to accept these programs because of religious overtones or a rigid approach to recovery.

Deepak Chopra and David Simon contend that Twelve-Step methods don't work for everyone because they emphasize personal powerlessness; it's this admission of powerlessness that keeps many people from ever truly healing. In *Freedom from Addiction*, Chopra and Simon offer a new way—a *proven* method based on the program at the renowned Chopra Center in Carlsbad, California. Combining the best of eastern and western medicine, they teach readers how to cleanse their bodies and minds through nutrition, supplements, and meditations, and they walk readers through their 7-Step Framework:

1. Commit to transformation
2. Commit to ending repeat mistakes
3. Face the harsh reality of the past
4. See the infinite possibilities available in the present moment
5. Envision where you want to be
6. Ask yourself what choices need to be made to actualize vision
7. Create an action plan

Through his creation of the Chopra Center for Well Being in California in 1995, Deepak Chopra established a vehicle for the expansion of his healing approach using the integration of the best of western medicine with natural healing traditions. Chopra is known as the prolific author of more than forty-two books. As cofounder (with Deepak Chopra) and medical director of the Chopra Center, Dr. David Simon is the driving force behind the Center's development, training, and implementation of programs and seminars in mind-body medicine, emotional healing, and spirituality.

***WHAT THE BLEEP DO WE KNOW!?* Discovering the Endless  
Possibilities for Altering Your Everyday Reality**

*What the Bleep Do We Know!?* is a book of amazing science that takes the reader through the looking glass of quantum physics into a universe that is more bizarre and alive than ever imagined.

Hundreds of years ago, science and religion split apart; they became antagonists in the great game of explanation and discovery. But science and religion are two sides of the same coin. They both help explain the universe, our place in the great plan and the meaning of our lives. In fact, they can only begin to do that adequately when they work *together*. With researchers and theoretical scientists leading the way, the book leads us to ask great questions like:

- What is a thought made of? What is reality made of? And most important, how does a thought change the nature of reality?
- A higher power exists, but is it truly out there? Where is the dividing line between out there and in here?
- If thoughts are more than random neural firings, then is consciousness more than an anatomical accident?

This international bestseller – over 70,000 paperback copies sold in the U.S. – challenges the readers with mind-stretching questions. The book does not show the path, but the endless possibilities.

William Arntz, a research laser physicist and spiritual seeker, created one of the world's most widely used pieces of software. He retired and became interested in uniting his four great passions: leading edge science, spiritual inquiry, filmmaking and computers. He scripted, produced and directed the documentary film based on principles in *What the Bleep Do We Know!?*

Parents everywhere -- even Hollywood's biggest stars -- face the same dilemma: "How do I get my child to sleep?" The answer is *The Sleepeasy Solution*.

Psychotherapists and sleep specialists Jennifer and Jill, the dynamic "girlfriends" all of Hollywood calls on to solve their kids' sleep problems, have perfected their sleep technique that will get any child snoozing in no time—most often in fewer than three nights. The key to their method? It addresses the emotional needs of both the parent and child (yes, how to handle the crying!)—a critical component of why most other sleep methods fail.

In this much-needed, family-friendly guide, weary parents will learn to define their own individual sleep goals, those that work for their family's schedule and style. They'll create a customized "sleep planner" to ensure consistency with both parents as well as extended caregivers. With comprehensive sections devoted to each stage of Baby's and Toddler's development, plus solutions to special circumstances like traveling, daylight saving's time, moving to a "big kid bed" and multiples, *The Sleepeasy Solution* is a dream come true!

Picking up right at the point where Janet Woititz's book *Adult Children of Alcoholics* left off, clinical psychologist Tian Dayton's latest contribution contains fresh perspectives and new analysis on how to gain back emotional stability after growing up with the trauma of addiction, abuse, and dysfunction.

Dr. Dayton accomplishes this by presenting and explaining the latest research in neuropsychology and the role trauma plays on chemically altering the brain. With compassion and clear explanations and her own personal journey, Dayton teaches readers how to undo the neuropsychological damage of trauma to rewire the brain and reverse the negative effects trauma has on our future relationships and behaviors to gain emotional sobriety.

In *Emotional Sobriety*, Dr. Dayton teaches readers:

- How to understand the mind/body relationship of addiction and relationship trauma
- How to rewire your brain to undo the negative effects trauma has on personal, career, and romantic relationships
- How changing the way one lives and perceives adult relationships can change the way one thinks and feels and vice versa

Tian Dayton, Ph.D., TEP, holds a doctorate in clinical psychology, a master's in educational psychology and is a certified trainer and practitioner of psychodrama, sociometry and group psychotherapy. A fellow of the American Society of Psychodrama, Sociometry and Group Psychotherapy, she is in private practice in New York City. She is the author of thirteen books.

***HEALING THE SHAME THAT BINDS YOU***

A classic book on confronting and ending the toxic shame that prevents you from living a peaceful, joyful life by bestselling author John Bradshaw.

*Healing the Shame That Binds you* shows how shame is the motivator behind our toxic behaviors. Compulsion, co-dependency, addiction and drive to super achieve is what breaks down the family and destroys personal lives. John Bradshaw helps readers to identify their personal shame, understand the underlying reasons for it, address these root causes and release themselves from the shame that binds them to their past failures. This is the way to leave destructive behaviors behind and move towards a more fulfilling and happy future.

John Bradshaw, now deceased, was the author of five *New York Times* bestsellers, *Bradshaw On: The Family*, *Healing the Shame That Binds You*, *Homecoming*, *Creating Love*, and *Family Secrets*. He created and hosted four nationally broadcast PBS television series based on his best-selling books. John pioneered the concept of the "Inner Child" and brought the term "dysfunctional family" into the mainstream. He has touched and changed millions of lives through his books, television series, and his lectures and workshops around the country.

A groundbreaking and practical program that makes the birth experience pain free and joyful for mother, baby, and family.

Childbirth is not supposed to be a terrible, painful experience, so why is it such a traumatic event for so many women? The answer is simple: because mothers are fearful of the process and that fear causes three physical reactions in the body—tightening of the muscles, reduced blood flow, and the release of certain hormones—which increase the pain and discomfort of childbirth.

Hypnobirthing® is a tried and proven method that guides and prepares a woman in giving birth in a peaceful and beautiful manner. It is a program that considers the psychological, as well as the physical, well-being of the mother, her birth partner, and the newborn, independent of context, whether that be in the quiet of a home, a hospital, or a birth center. The Hypnobirthing® program includes special breathing, relaxation, visualization, meditative practice, attention to nutrition and positive body toning. Most importantly it fosters an air of mutual respect for the birthing family, as well as the health-care provider in a traditional health-care system or an alternative setting.

Hypnobirthing® drastically reduces the pain of labor and childbirth. It almost always eliminates the need for drugs. It reduces the need for caesarian or other doctor-controlled birth interventions. And it speeds recovery time, allowing for better and earlier bonding with the baby, which has been proven to be vital to the mother-child bond. The book provides a complete introduction to hypnobirthing, giving the science and history behind the technique with practical instruction for pregnancy, labor, and the birth itself. The book also includes an audio CD with guided relaxation exercises.

Marie Mongan, M.Ed., M.Hy., is a life-long educator, former college dean, clinical hypnotherapist, and Director of the Hypnobirthing Institute. She is the recipient of the 1995 National Guild of Hypnotists President's Award and received the coveted Charles Tebbetts Award in 2000 for the recognition she has brought to hypnotherapy.

***DARE TO FORGIVE***

**March 2004**

A renowned psychologist illustrates the power of forgiveness in our lives and explains how it can change our lives for the better.

Forgiveness is not turning the other cheek, it is not running away and it does not mean that you condone what someone has done, nor does it invite him or her to do it again. Forgiveness doesn't mean that you don't want an offender to be punished, it doesn't mean that you'll forget the offense, or that by forgiving you tacitly invite bad things to happen again. And forgiving doesn't mean you won't defend yourself or that you must love (or stop disliking) the person you are forgiving."

In other words, forgiveness is not a sign of weakness but of strength. It's also healthy, brave, contagious, and sets you free. In this book, Dr. Hallowell not only explains why forgiveness is one of the best things you can do to heal your body and mind; he also offers a practical, four part plan for achieving it. True stories illustrate the power of forgiveness in real lives, from a wife who forgives the hurtful words of her husband to a mother who forgives the man who kidnapped and murdered her daughter.

Dr. Hallowell's unique 4-step plan for conquering feelings of anger and resentment will result in allowing you to forgive and free yourself of negative, painful emotions.

Dr. Edward Hallowell is a psychologist and internationally recognized expert on ADD and other behavioral problems. He is an instructor at Harvard Medical School and director of The Hallowell Center for Cognitive and Emotional Health.

A revolutionary approach to health that demonstrates that almost all disease can be both prevented and reversed.

One day Raymond Francis, a chemist and a graduate of MIT, found himself in a hospital, battling for his life. The diagnosis: acute chemical hepatitis, chronic fatigue, multiple chemical sensitivities, and several autoimmune syndromes, causing him to suffer fatigue, dizziness, impaired memory, heart palpitations, diarrhea, numbness, seizures and numerous other ailments. Knowing death was imminent unless he took action, Francis decided to research solutions for his disease himself.

In *Never Be Sick Again*, Francis presents a revolutionary theory of health and disease: there is only one disease (malfunctioning cells), only two causes of disease (deficiency and toxicity), and six pathways to health and disease (nutrition, toxins, psychological, physical, genetic, and medical). This remarkable book answers the questions: What is health? What is disease? Why do people get sick? How can disease be prevented? How can it be reversed? It will teach readers, in one easy lesson, an entirely new way to look at health and disease — an approach that is easy to understand, yet so powerful that they may, indeed, never have to be sick again.

Raymond Francis is an internationally recognized leader in the field of optimal-health maintenance. He is the author of the bestselling books *Never Be Fat Again* and *Never Fear Cancer Again*, a breakthrough book on how to prevent and reverse cancer. Francis is the creator of a revolutionary and simplified understanding of disease, the Beyond Health Model, which employs the concept of One Disease with Two Causes and Six Pathways. After a miraculous recovery from a terminal disease diagnosis in 1985, Francis devoted himself to improving the health of people everywhere.

An in-demand speaker, Francis has been a guest on over 2,000 radio and television shows. His books have been translated into Chinese, Polish, Romanian, French and Turkish.

***A CHILD CALLED "IT"***

**September 1995**

The internationally bestselling book (that was nominated for a Pulitzer Prize) that chronicles the unforgettable account of one of the most severe child abuse cases in California history. It is the story of Dave Pelzer, who was brutally beaten and starved by his emotionally unstable, alcoholic mother: a mother who played tortuous, unpredictable games--games that left him nearly dead. He had to learn how to play his mother's games in order to survive because she no longer considered him a son, but a slave; and no longer a boy, but an "it."

Dave's bed was an old army cot in the basement, and his clothes were torn and raunchy. When his mother allowed him the luxury of food, it was nothing more than spoiled scraps that even the dogs refused to eat. The outside world knew nothing of his living nightmare. He had nothing or no one to turn to, but his dreams kept him alive--dreams of someone taking care of him, loving him and calling him their son.

Dave Pelzer travels throughout the nation promoting inspiration and resilience. His unique accomplishments have garnered personal commendations from Presidents Reagan and Bush. In 1993 Pelzer was chosen as one of the Ten Outstanding Young Americans (TOYA), and in 1994 was the only American to receive The Outstanding Young Persons of the World (TOYP) award. He was also a torchbearer for the Centennial Olympic Games.

**THE LOST CHILD**

**August 1997**

The sequel to Dave Pelzer's bestselling book *A Child Called "It"*

*The Lost Boy* is the story of a young boy who never had a loving home. His only possessions were the old, torn clothes he carried in a paper bag. The only world he knew was one of isolation and fear. Although others had rescued this boy from his abusive alcoholic mother, his real hurt was just beginning -- he has no place to call home.

The book chronicles how Dave was finally rescued by teachers, social workers and foster parents from one of the most severe cases of child abuse documented in the State of California. It follows Dave's life from the ages of 12 through 18 from his placement in foster care to his enlistment in the U.S.

Air Force. It is a story of indomitable spirit, unyielding faith and courage. It is also a story of the professionals who serve children with their selflessness, dedication and love.

*The Lost Boy* is Pelzer's journey searching desperately for just one thing: the love of a family.

**John Bradshaw**  
***BRADSHAW ON: THE FAMILY***

**April 1990**

The classic, #1 New York Times bestseller is John Bradshaw's seminal work on the dynamics of families that has sold more than one million copies and was the basis of the public television series of the same name.

Bradshaw discusses the cause of emotionally impaired families and how unhealthy rules of behavior are passed down from parents to children. Also, he shows the destructive effect this process has on our society.

Using the latest family research and recovery material, Bradshaw explores the individual in both a family and societal setting. He shows you ways to escape the tyranny of family-reinforced behavior traps -- from addiction and co-dependency to loss of will and denial -- and demonstrates how to make conscious choices that will transform your life and the lives of your loved ones. He helps you heal yourself and then, using what you have learned helps you heal your family.

Finally, Bradshaw extends this idea to our society: by returning yourself and your family to emotional health, you can heal the world in which you live. He helps you re-envision societal conflicts from the perspective of a global family, and shares with you the power of democracy: how the choices you make every day can affect--and improve--your world.
